REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art compositions for drug delivery adjust their osmolarity adjusted to 290 mOsm or higher (see related application SN 10/201,303, Declaration filed 12/05/2003). The closest prior art (cited in that copending application) is that of Bauer et al which disclose that such formulations may have an osmolarity between 250 and 300 mOsm. Applicant is claiming a significantly lower osmolarity and has shown a significant increase in bioavailability (see Declaration of 08/13/2001 and remarks filed 04/08/2003). The instant composition is therefore allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carlos A. Azpuru whose telephone number is (571) 272-0588. The examiner can normally be reached on Tu-Fri, 6:30 am - 5:00 pm.
